visualisasi dari commands  
visual of commands  
(command menu)

The screenshot shows a mobile application interface titled "Edit device" in a purple header bar. Below the header is a text input field for "Device Name" containing the text "ESP LED". Underneath is a section titled "Commands:" with a "New Command" button to its right. This section contains two command entries, each with a text input field, a pencil icon for editing, and a trash can icon for deletion. The first command is "To turn on built-in led" with the value "1". The second command is "To turn off built-in LED" with the value "0". At the bottom of the screen is a large "Save Device" button with a floppy disk icon. The bottom of the screen shows a black Android navigation bar with three icons: a square, a circle, and a triangle.
